## Placing the D-Tag on your shoe

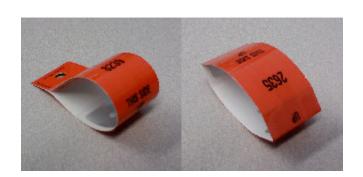

## **CORRECT**

The D-Tag MUST be ROUND with "the SILVER part" of the tag sticking up in the air as in this example. Not upside down.

"The SILVER part"

## INCORRECT

Both of these examples are the INCORRECT way to place a D-Tag on your shoe. As you run these two tags will flatten out and you will NOT receive a time at the finish line. Why take the chance? Place it on as in the above example and you will always receive a finish time.
